AUGUST 2022

ZINC EUROPEAN TOUR

In partnership with Big hART and Nyrstar, North-West Support Services is excited to announce that the music of Eastside musicians Aaron Hopper, Paul Corfiatis and Curtis Poke is going international.

Part mesmerising installation, part live performance exploring the hidden industrial world of zinc, Acoustic Life of Zinc premiered at Mona Foma in 2021. With music created purely from 270 sounds from the smelter composed by North-West Tasmanian Artists Aaron Hopper and Paul Corfiatis, combined with spellbinding visuals created by Anna Cadden and Jordan East with artwork by Jacob Rish and Eddie James, the work received rave reviews and celebrated the power of collaboration, innovation, and inclusion.

In September it will tour to The Netherlands, France, and Belgium. Enjoy an insight into the work in the video and feature below.
