NDIS WORKER ORIENTATION MODULE 'QUALITY, SAFETY AND YOU'

The Worker Orientation Module 'Quality, Safety and You' is a well-planned, executed and engaging orientation program that has people with disability at its centre. Every conversation is led by people with disability. We have people with disability telling the sector what the code of conduct means to them, what makes them feel safe, and declaring their expectations of their services. You can watch their services.

"Safe does not mean being wrapped up in cotton wool and not having an ordinary life".

The completion of this module is a compulsory requirement for working in the disability sector.

Completion of the module will take approximately 90 minutes. You can save, exit and return to the module at any time. Once completed, you will receive a certificate of completion to print and email.

The program is made up of four modules:

- 1. Understanding the NDIS**
- 2. The NDIS 'Quality and Safeguards Commission**
- 3. The NDIS Code of Conduct: Your responsibilities**
- 4. The NDIS and You: Delivering Quality Services**

**This is a compulsory certificate for working
anywhere in the disability sector**

**A link will be provided to this compulsory
module as soon as it is officially launched.**
