

# Sequence for putting on and removing PPE

To reduce the risk of transmission of infectious agents, PPE must be used appropriately. The following table outlines sequences and procedures for putting on and removing PPE.

Table 14. Putting on and removing PPE

| SEQUENCE FOR PUTTING ON PPE                                                                                                                                                                                |                                                                                      |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| Put on PPE before patient contact and generally before entering the patient room                                                                                                                           |                                                                                      |
| <p><b>HAND HYGIENE</b></p> <ul style="list-style-type: none"> <li>Wash hands or use an alcohol based hand rub.</li> </ul>                                                                                  |    |
| <p><b>GOWN</b></p> <ul style="list-style-type: none"> <li>Fully cover torso from neck to knees, arms to end of wrists, and wrap around the back.</li> <li>Fasten at the back of neck and waist.</li> </ul> |   |
| <p><b>MASK</b></p> <ul style="list-style-type: none"> <li>Secure ties or elastic bands at middle of head and neck.</li> </ul>                                                                              |  |
| <p><b>PROTECTIVE EYEWEAR OR FACE SHIELD</b></p> <ul style="list-style-type: none"> <li>Place over face and eyes and adjust to fit.</li> </ul>                                                              |  |
| <p><b>GLOVES</b></p> <ul style="list-style-type: none"> <li>Extend to cover wrist of isolation gown.</li> </ul>                                                                                            |  |

## SEQUENCE FOR REMOVING PPE

### Remove PPE at doorway or in anteroom

#### GLOVES

- Outside of gloves is contaminated!
- Grasp outside of glove with opposite gloved hand; peel off.
- Hold removed glove in gloved hand.
- Slide fingers of ungloved hand under remaining glove at wrist.
- Peel glove off over first glove.
- Discard gloves in waste container.

#### HAND HYGIENE

- Wash hands or use an alcohol based hand rub.

#### PROTECTIVE EYEWEAR OR FACE SHIELD

- Outside of eye protection or face shield is contaminated!
- To remove, handle by head band or ear pieces.
- Place in designated receptacle for reprocessing or in waste container.

#### GOWN

- Gown front and sleeves are contaminated!
- Unfasten ties.
- Pull away from neck and shoulders, touching inside of gown only.
- Turn gown inside out.
- Fold or roll into a bundle and discard.

#### MASK

- Front of mask is contaminated—DO NOT TOUCH!
- Grasp bottom, then top ties or elastics and remove.
- Discard in waste container.

#### HAND HYGIENE

- Wash hands or use an alcohol based hand rub immediately after removing all PPE.
